

## Philosophy

- We believe in an active, progressive approach to pain management that combines specialized procedures, targeted physical therapy, behavior modification and carefully planned medication.
- Our patient care philosophy requires patient involvement in their own treatment plan.
- Persistent and complex pain conditions arise from many causes. However there are many specialized methods to treat such pain.
- The staff of the Pain Solutions Treatment Centers is comprised of experienced healthcare professionals with a mission to provide you with the most comprehensive treatment options and personal care available.
